ABOUT SCIART EXCHANGE

SciArt Exchange aims to engage and prepare the world to creatively solve space, science and technology challenges together.

The nonprofit offers multi-disciplinary art contests, artwork tour events, consulting, training and community resource services. Art-integration techniques provide motivating activities that train not only facts and analytical processes but also much-needed communication, creativity and collaboration skills. Art also enables a broad discussion of not only the “how and what” but also the “why” of exploration and development, considering issues ranging from technical and strategic to ethical, emotional, and social.

Dr. Jancy McPhee, a neuroscientist by training, began the foundational work for SciArt Exchange while a space life scientist at NASA.

SPACE VENUES INCLUDE:

THE INTERNATIONAL SPACE STATION
BOUNCED OFF THE MOON

TERRESTRIAL VENUES INCLUDE:

CINEMARK THEATERS
NATIONAL GEOGRAPHIC HQ
OUTDOOR ADVERTISING ASSOCIATION OF AMERICA
MANY MORE!

ANNUAL SPACE YOUTH ART COMPETITIONS & TOURS

Beginning in 2019, we will hold annual, international, multimedia art competitions inviting youth 10-18 years old to learn about space exploration and relay their visions of the future. After each contest, the artwork will be showcased in displays and performances worldwide.

These activities are a motivating, interdisciplinary, educational activity for children, employing the latest STEAM (Science-Technology-Engineering-Art-Math) education approaches. They will have broad appeal and be accessible to students from all backgrounds and socio-economic levels. They will train much-needed communication, creativity and team work skills as well.

These recurring contests and tours will keep the public informed, excited and actively participating in the future of space exploration, as we progress to live, work, and do science on the Moon, Mars and further into deep space.

“I have been waiting all my life for an opportunity like this.”

Ricardo Bernardini

Project Mars Competition Film Winner

“SciArt Exchange demonstrates the power of bringing science and engineering together with the arts!”

MULTIMEDIA CONTEST

Youth Ages 10-18 Worldwide

Open Jan. 22-April 30, 2019

Tour Begins July 2019

**2019 YOUTH ART COMPETITION
CURRENTLY OPEN!**

**WELCOME TO THE MOON
WHAT WILL WE DO ON THE MOON?
WHY IS IT IMPORTANT?**

You tell us.

CURRENT 2019 SPONSORS

HELP US ENGAGE THE WORLD

ARE YOU INTERESTED IN:

Educating Youth to Be Creative and Globally-Sensitive Leaders?
Encouraging People of All Ages and Backgrounds to Work
Together to Solve Future Science and Technology Challenges
with the Power of the Arts?

GIFT YOUR VOICE AND TALENT TO INSPIRE YOUTH AND ADULTS WORLDWIDE:

Tugade/Dimaculangan | Age 17 | Philippines

BE A VOICE

Only a few moments of time from anywhere

Spread the word on your social media platforms so more children and fans will learn about this exciting competition and enter. Create a post, story, text, or informational share on your pages.

BE A JUDGE

2-4 HOURS in late June from your own home

Determine what film, literature, art and music will win the competition from among the narrowed down entries. Inspire children to enter the contest, raise awareness about global space exploration, and draw influential judges like yourself to future contests.

BE A FACE

1-2 HOURS in Los Angeles

Attend our event at the Vortex Studio Lot 450 S Bixel St, Los Angeles, CA 90017 in August. Engage with winners of the competition and our hand-selected group of 100 professionals, strengthening our mission and encouraging youth to compete in the future.

BE A HOST

Any amount of time, up to 3 hours, in Los Angeles

Host or MC our event in Los Angeles. The total event runs 3 hours, with the main portion lasting 2 hours. Gift any amount of your time to help celebrate the creative, space-themed, multi-media artwork of children worldwide.

BENEFITS OF PARTNERSHIP

MOTIVATE

Motivate young people from all cultures and socioeconomic backgrounds to learn and enable them to develop the skills they need to be our future creative workforce.

ENGAGE

Engage everyone in thinking about the future of space, science and technology in an informed, socially-aware, and educated manner

BENEFITS OF PARTNERSHIP

TALENT VISIBILITY

During open contests, talent can be visible on the website, in electronic messaging, social media and press releases.

5,000+ SUBSCRIBERS

Subscribers and past participants and contributors notified

100K+

Contest website views

100,000s SOCIAL MEDIA VIEWS

Through influencer posts and reposts like NASA astronauts, Cinemark Theaters, National Geographic, Celebrity judges and others.

During artwork tours, talent attending in person will be listed on event signage

1,000,000+ IN PERSON VIEWS

Through past events

Schools and teachers amplify talent visibility with parents and children by sharing the contests with their classrooms.

40K CLASSROOM STUDENTS

In the first week of 2019 Moon Contest promotion, 400 teachers notified in person, potentially reaching 40K classroom students (not including their social media amplification)

Talent attending tour events will receive additional visibility via press and social media
